EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Steven R. Ormiston on 02/02/2004.

3. The application has been amended as follows:

Claim 12:

Line 13: after "apparatus;", " **nd**" has been replaced with -- **and** --.

Claim 15:

Line 6: after "including", " **xecuting**" has been replaced with -- **executing** --.

The above change have been made to correct a document scanning error by the Patent Office, it does not change the scope of the claims.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

Claims 1-2, 6-8, 11 and 13 have been indicated for allowance because the prior art fails to teach the entire combination of a print apparatus including the processor operative to control the print engine and to receive and process an electronic representation of the document in a page description language including applying the

spell checking program to the page description language electronic representation of the document.

Claims 3-5 have been indicated for allowance because the prior art fails to teach the entire combination of a print apparatus including the spell checking program when executed by the processor generates information identifying the set of words and supplies the information to the page description language engine and the page description language engine cause the print engine to print the document with the set of words marked to indicate misspelling.

Claims 9-10 have been indicated for allowance because the prior art fails to teach the entire combination of a print apparatus including the processor for receiving and processing print job files from the computer communicating with the print apparatus and the processor executes the spell checking program when the print job files has a spell check flag activated.

Claims 12 and 14 have been indicated for allowance because the prior art fails to teach the entire combination of a print apparatus including the job file comprising a spell check flag and the processor executing the spell check program when the spell check flag is activated.

Claims 15-16 and 19-20 have been indicated for allowance because the prior art fails to teach the entire combination of a computer program including the computer readable code when executed causing a printer apparatus to accept a page description language input print job file and process the print job file including executing a spelling check program for identifying a set of misspelled words in the print job file.
